

Summons to Nirav, Mehul Under New Law

Mumbai: A PMLA court here summoned diamond jeweller Nirav Modi and his uncle Mehul Choksi to appear before it on September 25 and 26 respectively on the Enforcement Directorate's plea seeking action against them under the new fugitive economic offenders law in the alleged \$2 billion PNB bank fraud case, officials said on Thursday.

The agency had recently moved the court seeking to declare the diamond traders as 'fugitive economic offenders' and to confiscate their assets worth ₹3,500 crore in the case. The court has sought their appearance on September 25 (Nirav Modi) and 26 (Mehul Choksi) respectively under the fugitive economic offenders law, they said. The ED had filed two separate applications against the duo before the special court that hears matters under the Prevention of Money Laundering Act (PMLA). — PTI

Rate Cut May Boost Demand

► From Page 1

The country's largest home appliance maker LG India business head (refrigerator) Vijay Babu said the company is going to pass on the full GST reduction benefit to consumers with effect from July 27. Other companies too are passing on the full benefit.

Samsung India senior VP (consumer electronics) Rajeev Bhutani said the firm is extending the benefits of GST rate reduction that will fuel growth of consumer electronics. Industry executives said LG has dropped prices by 8-9%, while Samsung and Godrej will be reducing prices by more than 7.81% across all products which got a tax cut. Panasonic's net price cut is between 7% and 8%.

For instance, LG's 335-litre frost-free refrigerator price has dropped by 8.5% to ₹42,840 from ₹46,490 earlier, while a 6.2kg top-load washing machine is priced at ₹18,390 from ₹19,990. A Godrej 190-litre direct cool refrigerator is now priced at ₹15,257, against ₹16,550 earlier.

The tax component is calculated on dealer price to arrive at the product's maximum retail prices. While some brands have passed on the complete benefit of the tax cut keeping dealer prices intact, some have also reduced dealer price whereby the net price cut has been marginally more, an executive said.

Godrej Appliances business head Kamal Nandi said for the stock already in trade, the manufacturers will supply new pricing labels to the retailers mentioning the new MRP which they will stick on the product packaging. The industry is optimistic the price cut will fuel demand with consumers holding back on discretionary spending since demonetisation in November 2016.

DG Report is Key to Further Action

► From Page 1

Under the provisions, all complaints at the national level are examined by a standing committee, and at the state level by state screening committees consisting of officials. If a complaint is found to have merit, it is sent to the DG anti-profiteering for an investigation to be completed in three months. The DG then sends the report to the National Anti-Profiteering Authority, which issues the order. The DG's investigation report is key to the decision by the authority and an adverse report would impact a company.

However, there are no guidelines for businesses on anti-profiteering and it has been left to their wisdom to pass on tax benefit in the manner they deem right.

Many restaurant chains did not reduce prices consistently across menu since the GST cut, which they said was because of the roll-back of input tax credit (ITC) after the reduction in tax rates.

Restaurant firms say denial of the ITC benefit had hurt profitability since it led to higher costs for the industry. ITC effectively brings down final tax outgo as companies can claim credit against taxes paid on inputs used.

Long-term Contracts in Aviation Space

► From Page 1

The expected ebbs and flows of the aviation industry are revised from the current base of \$200 million based on investments already in place by Aleris of \$900 million, which will start "driving earnings and cash flow momentum" from the next financial year, Hindalco and Birla group officials said.

The acquisition is expected to get completed in the next 9-15 months after which the combined capacity of the company including Hindalco in India will be 4.7 MT with a consolidated revenue of \$21 billion and employee base of 40,000.

On the debt front, the combine that will reach a net debt to EBITDA multiple of less than 4x at the time of closing will come down to approximately 3x after two years. With Hindalco's debt put together, the multiple will fall to less than 3x after two years, Birla said. The consolidated net debt of Hindalco currently is more than ₹43,000 crore.

The potential benefits of this acquisition in terms of synergies is about \$150 million on a recurring basis and these will be achieved through integration of operations of both companies in Asia, supply chain and SG&A optimisation, Birla said.

"Acquisition of Aleris is a great strategic move by Hindalco-Novelis," said Anjali Agarwal, global steel leader at Ernst & Young. Consolidation of both players with focus on technology and knowhow will be immensely value-accretive over a long term for the entire aluminium business.

Tata Power Reports 4-Fold Jump in Q1 Net

New Delhi: Tata Power on Thursday reported more than a four-fold increase in consolidated profit after tax at ₹1,735 crore for the June quarter, on the back of excep-

tional gain from the sale of investments. The firm had posted a consolidated profit of ₹405.8 crore in the year-ago quarter, according to a regulatory filing. — PTI
