HIGHLIGHTS 2015

Exchanging Ideas, Sharing Learnings

In July 2015, the Board of Directors (BoD) of FAG India visited the Schaeffler Headquarters in Germany. During this visit, the BoD toured the plants and R&D facilities at Schweinfurt and Herzogenaurach. The BoD was impressed by the immense engineering and innovation capabilities of Schaeffler and exchanged views on FAG India's roadmap for the future with Schaeffler top management.

Exporting Excellence, Importing Prosperity

Engineering Export Promotion Council (EEPC) awarded and recognised FAG as 'Star Performer' under category of Large Enterprise for '**Outstanding Contribution towards Engineering Exports**'. Mr. Suresh Prabhu, Railway Minister – Government of India handed over the award to FAG.

Strengthening Economic Ties

At the 59th AGM of the Indo-German Chamber of Commerce (IGCC) in September 2015, FAG Bearings India Ltd. received awards for **outstanding contribution towards the promotion of Indo-German Economic Relations** and for **outstanding export performance by an Indo-German joint venture**.

Customers and Sales Partners visit to Hannover Messe 2015

Top Indian customers and sales partners visited the Hannover fair which showcased a wide range of products and innovations of Schaeffler technology. They were also provided an opportunity to visit one of Schaeffler's largest manufacturing plants, based in Schweinfurt.

Winning as a Habit

FAG employees participated in Quality Circle Competition organised by the Automotive Component Manufacturers Association of India (ACMA) Western Region. FAG employees won **2nd Runners up Trophy** for innovative new solutions.

Spinning Success - Second year in a row

Rieter India Pvt. Ltd., one of India's leading manufacturers of textile spinning systems, recognised FAG as the '**Best Delivery Supplier**' for the **2nd consecutive year** during its vendor meet in September 2015.

Gold Standard in Quality

FAG India employees won **5 Gold trophies** at the regional Quality Circle Competition organised by Quality Circle Forum of India (QCFI). Additionally, in testament to our continuous improvement initiatives, we also won a **Gold trophy in the Best Kaizen Competition**.

SHAPING TOMORROW'S MOBILITY - TODAY

Eco-friendly Drive

Schaeffler technology focusses on realising the dream of emission-free driving. Besides innovating in areas of hybrid and e-mobility, we cover optimisation of conventional internal combustion engines. Schaeffler's concept vehicle 'Efficient Future Mobility India' demonstrates how reduction in fuel consumption of up to 15% can be achieved using Schaeffler technologies.

Inter-urban Mobility

Schaeffler is playing a pioneering role in inter-urban mobility by developing rolling bearings solutions for the railway sector – the solutions which add to efficiency, safety and emission reduction.

Schaeffler Global Perspective

Time flies. In a modern world of rapidly changing technologies, the inventions of today are quickly becoming innovations of yesterday. As a progressive company, Schaeffler is always a step ahead of others in investigating and identifying global trends in mobility. On the basis of these understandings, our research and development engineers have identified four development areas under Schaeffler's global strategic concept 'Mobility for Tomorrow'.

Urban Mobility

The challenges of urban mobility means great opportunities for Schaeffler to contribute in technologies towards efficient drivetrains of small vehicles and for development of urban infrastructure of today and tomorrow.

Energy Chain

As renewable energy sources are making a substantial contribution to the energy chain of tomorrow, Schaeffler is pushing its advanced technologies especially in the Wind sector.

In order to meet the growing customer expectations, we reinforce our core competence areas of Quality, Technology and Innovation. Our employees with their high level of commitment and hard work strive to deliver 'more' and exceed customer expectations.

EXPECT MORE

The 21st century has ushered in profound changes in the business world. The 'customer is king' approach has become engrained in our professional thinking.

In consumer markets, digitisation is transforming the way customers shop. Thanks to disruptive changes in technologies – social networking, cloud computing and so on – markets are becoming complex and competitive. The rise of techno-savvy Gen Y consumers has made online buying a routine process; and brand loyalty, a rarity.

At FAG we believe that organisational transformation and employee creativity are closely linked. Employees working in teams challenge status quo, innovate new solutions and raise the bar. In the picture FAG employees receiving Gold Trophy at Best Kaizen competition from ACMA (WR).

The landscape of industrial business too is rapidly changing. Customers want better quality and features. Sensitivity, awareness and responsiveness towards safety and environmental aspects are growing; making it imperative for manufacturers to remain on high alert at all times. Product life cycles are getting shorter and 'time-to-market' for new development is being constantly challenged. Supply chains are being pushed to look for smarter ways to meet customer expectations since traditional lead times are no longer accepted. The role of distribution channel will be re-written based on its ability to add value. Customers obviously expect more.

The confluence of changes in customer expectations and emergence of new competitive forces in the market puts an ever-increasing pressure on organisations.

In 2015, markets both in India and globally, remained turbulent. While the overall mood in India is still optimistic; at the ground level, business environment remains challenging. In the context of these profound changes, organisations must reinvent themselves, remain agile, and become competitive to be successful.

This is what we continuously strive to do. We produce better quality, innovate new products and services, improve operational excellence and raise people competence.

Our long experience in the market is surely an asset. At the same time, we are increasingly counting on young talent and fresh thoughts. We are taking new initiatives and raising the bar. We are expecting more from ourselves.

More than two decades ago, FAG was the first Indian company to invest in localisation of first generation wheel bearings. It is with the same first-mover enthusiasm that we continue to co-create new solutions with our customers

MORE

INNOVATIONS, MORE DEVELOPMENTS

Success is achieved when an organisation aligns its priorities and actions with the customer's goals. The first step towards building development partnership with customers, is to develop deeper understanding of their world. And that is what our application engineers and sector experts do, day after day. By working closely with our customers, these engineers develop a thorough insight into their market, trends, products, processes and key technology. This knowledge is systematically captured and serves as bedrock whenever we start working with our customers on a new development project.

Development partnership with our customers requires common and comprehensive understanding of design inputs and performance parameters. Our BearingX software is an excellent rolling bearing calculation programme that we use together with our customers

In a business environment where changes are happening at hyper speed, we are honing and scaling up our organisation's strategic, creative, collaborative and executional capabilities to innovate successfully and stay ahead.

It enables rolling bearing supports – from single rolling bearing to complex gear box systems and linear guide systems, to be analysed in detail. Designing right for a superior performance is one big step towards meeting the growing performance expectations of our customers.

But, even the brightest of ideas require sound implementation structure for success. That is why we make our innovation process robust and well-structured to seamlessly integrate concerns and contributions of all stakeholders. Design simulation and design validation that follow help us in ensuring that the design solution is effective under real life situation.

In the fast paced time, our innovation ability is the key success factor. At basic level, innovation refers to an idea that can be put into practice, and approach which can solve an existing problem. Breakthrough ideas are not created every day. When bright people collaborate with an open mind, work in detail, overcome obstacles, they gradually develop deeper insights and ultimately come out with a game changing solution. With this systematic approach to innovation, we developed over 145 new products during the year 2015.

In 2015 we produced over 30 million low friction ball bearings at Savli.

MORE QUALITY

Customers today have endless options. And as they compare different product options, they keep redefining their expectations. So at a very basic level, quality means anticipating, understanding and meeting customers' expectations.

Our customers increasingly emphasise on better quality of rolling bearings, higher reliability and longer maintenance cycles. New generation machines use higher power density, which means that drive components are subjected to greater loads and higher speeds. At FAG, we respond to these challenges by redesigning products for increased capabilities, by improving material quality and by upgrading manufacturing processes to deliver greater precision.

FAG cylindrical roller bearings, tapered roller bearings and spherical roller bearings produced at our Maneja and Savli plants carry the X-Life seal of quality.

X-Life is the seal of quality for ultra-high performance products of FAG. These products offer higher dynamic load ratings and thus higher rating life and higher operating life. Higher performance is achieved through the use of state-of-the-art manufacturing techniques as well as improvements in internal design. To our customers, X-Life offers new possibilities in design and engineering as they benefit from longer life and longer maintenance intervals. Alternatively, customers can use X-Life bearings for higher loads, redesign envelopes and achieve greater performance density. Simply put, customers get more quality and more performance with X-Life.

One of the leading development trends is the customer's demand for greater energy efficiency. Rolling bearings are extensively used in all rotating equipment. By influencing the level of friction, rolling bearings can improve efficiency.

Our new Generation C ball bearings produced at Savli plant cut noise levels, reduce friction by 35% and improve operating life. We achieve this by optimising the bearing's internal design, by improving its precision through advanced manufacturing process and by using efficient sealing concepts. Customers in turn can expect more energy efficiency and greater savings.

But quality is more than just manufacturing good products. Our 'Fit for Quality' programme recognises quality as a process of continuous renewal. The programme embraces all our people and processes. Together, we strive to identify and eliminate weaknesses early enough to prevent errors and ensure zero defect. The objective is to achieve highest process reliability and product quality throughout all phases – from design and manufacturing to service.

Excellence in quality is realised with application of state-of-the-art manufacturing technology. Our plant at Savli has set a global benchmark in terms of Quality and Productivity. Grinding and assembly equipment have been designed and manufactured by Schaeffler's Special Machine Building (SMB) division based on years of experience. Our qualified and motivated employees are comprehensively trained in all aspects of manufacturing and deliver excellence day after day.

FAG Smart Check is an innovative online monitoring system for continuous monitoring of machine and process parameters on decentralised basis.

MORE THAN PRODUCTS... PERFORMANCE

In order to realise the 'Make in India' dream, Indian manufacturing companies must face the challenge of improving productivity and reducing costs. Reducing unplanned maintenance downtime and containing maintenance cost are priority issues for operations and maintenance managers across all industry sectors.

Our TCO initiative aims to reduce the total cost of operations that is associated with rolling bearing usage. Besides offering reliable products and solutions, we extend our responsibility to reduce unplanned downtime and increase plant availability. Our service portfolio includes maintenance products and service expertise in the areas of mounting, lubrication, alignment, condition monitoring and repair.

The roll shop is given round the clock support by technicians. This includes roll grinding operators, fitter, riggers and crane operators. These services are provided by a competent service partner and managed by FAG's motivated team of site managers and supervisors.

Customer acceptance of our Roll Shop Maintenance Services for steel plants is growing. In steel plants, our service engineers and technicians takeover the entire responsibility of roll changes, roll grinding, bearing inspection, bearing overhaul and other associated maintenance practices with clear objective of continuously minimising downtime and improving machine availability. In this on-site service initiative, our engineers work closely with operations and maintenance team to improve processes and thus improve performance.

JSW Steel limited, one of India's largest private sector steel companies, awarded Roll Shop management contract to FAG in 2013. This comprehensive maintenance contract at JSW's cold rolling mill complex at Bellary includes the following:

- Roll Mounting, Handling and Grinding
- Movement to finished bay
- Bearing inspection and overhaul
- Assembling in steel mill

FAG special purpose greases are ideally suited for high impact loads in cement machines.

MORE

THAN PRODUCTS...
PERFORMANCE

In yet another initiative, our engineers took a challenging task of improving performance of roller press equipment in cement industry. The environment in cement industry is different and demanding. High exposure to environmental contamination, high vibrations and shock loads at low speeds in cement manufacturing machines pose tough challenges for maintenance engineers. For Roller Presses, FAG's high-capacity multi-row cylindrical roller bearings have proven excellent reliability. By using our specialised high-performance lubricants and by applying our sophisticated online condition monitoring equipment, we are able to improve process performance, predict and solve problems, reduce unplanned downtime and improve productivity of critical process in a cement plant.

Slowly but surely, we are expanding our scope to offer more than just products. We are selling reliability. We are reducing unplanned maintenance. We are helping our customers to improve productivity and quality.

Online condition monitoring helps in detecting deterioration of the machine condition quickly. This allows time to plan resources and carry out repairs during planned shut down. In essence, productivity is increased.

We Sell Reliability

Operating conditions in heavy industries are tough. Heavy loads, high temperatures, varying speeds, unfavourable environmental conditions are only some of the challenges that rolling bearings face in real world. Our engineers understand these challenges well and design high performance products for demanding applications. Our service engineers combine their product and application know-how with best maintenance practices to ensure that equipment fitted with FAG rolling bearings perform with very high reliability and offer best of manufacturing productivity to our customers.

During the year, 122 Josh Circles were registered; of which 39 were completed. Our employees received numerous awards at various quality and productivity events.

MORE TALENT. MORE EMPOWERMENT.

Every organisation today faces the challenge of talent management. On one hand, as a generation of baby boomers prepares to retire, organisations have to focus on transferring key knowledge and relationship to next generation of professionals. At the same time, new skills, talent and ways of working are required to succeed in the changing technological and business landscape.

Supporting talent and encouraging creativity are part of our vision at FAG. The core Schaeffer value system based on trust, transparency and teamwork forms a solid foundation for our people and business practices.

Our Young Leaders' Programme prepares talented and motivated young managers for the future. Through this programme, we inculcate confidence in youth to take greater responsibility, encourage independent thinking and agile working.

As a technology-driven manufacturing organisation, we create significant value on the shop-floor. Our Team Leader Programme is designed to develop technical and leadership capabilities in

young engineers and technicians as they drive benchmark levels of quality and productivity on the shop-floor. 70:20:10 is a commonly accepted training and talent development tenet – 70% on the job, 20% through coaching and mentoring; and 10% through formal training. Working in teams is thus essential to derive superior performance. This is the guiding principle behind our Josh Circle initiative.

Here, a group of employees, driven by a common vision and passion to succeed, collaborate to realise significant improvement in their chosen project by following structured problem-solving tools and innovative approach. It is through initiatives like these that we inspire empowered employees to discover their true potential, set ambitious goals, deliver superior performance and thus fulfil our customer promise to 'deliver more'.

Working in teams, attention to details and passion to succeed describes the culture at FAG, a culture where we continuously raise the bar and expect more of ourselves – so that we can deliver more to our customers.

At FAG we believe that empowerment begins by one's commitment to improve the personal mastery. By facilitating an organisational environment that encourages enterprise, ignites excellence and nurtures empowerment, we encourage our employees to focus their energies, develop patience and to see reality objectively. It is this 'inside-out' self motivation that allows employees to reach high levels of potential and productivity.

MORE SMILES

The society too expects more from the business it supports. That is why social responsibility has become part of corporate dashboard for many organisations. As part of Schaeffler Group and as a leading manufacturer of rolling bearings in the country, we find numerous opportunities to contribute to human progress through our innovative technologies and touch the lives of people.

At the same time being an Indian company, we are equally motivated by the Indian ethos of Dharma as a key plank for organisational self-realisation. We constantly strive to contribute, in our humble way, to the motto 'सर्वे भवन्तु सुखिनः.' (May everyone be happy) and take up the cause of welfare of communities in which we operate.

We regularly identify and implement unique initiatives which are scalable and sustainable and which have the capacity to create a positive impact on the lives of people around us, especially the weaker and underserved sections of the society. Our CSR initiatives, under the umbrella name of HOPE, define our priority action areas clearly i.e. Healthcare, Occupational Skill & Employability, Preservation of National Heritage, Art & Culture and Empowerment of Society.

At FAG, we believe that science and technology are synonymous with economic and human development as both aim to drive progress and improve the standard of living while preserving the environment and supporting sustainability.

'HOPE' hostel for differently abled girls was handed over to Mook Dhvani Trust, Vadodara. In the picture Ms. Avantika Singh Aulakh - District Collector, Vadodara, Mr. Avinash Gandhi - Chairman of Board of Directors - FAG Bearings India Ltd. and Mr. Dietmar Heinrich - CEO, Schaeffler Europe.

Hope for better future took us to Mook Dhvani - a school for differently abled students in Vadodara. The school was facing a problem of accommodating its girl students in a safe and conducive environment. When they approached us for support in building a hostel, we readily accepted the proposal.

The result was a modern hostel HOPE, a hostel built with affection for the girl child, built with passion for quality education and built to high quality standards that one associates with FAG. We envision that this hostel will encourage the differently abled girls to pursue high school education and will bring down the dropout rate.

Building the HOPE hostel was our first step to connect with the lovely children of Mook Dhvani School. Moving ahead, we are encouraging students to take up occupational courses after schooling - beauty & well-being, computer hardware, animation and so on.

At FAG, we follow a systematic approach, combine thoughtfulness with sensitivity; encourage innovation, collaborate with competent agencies and communities, keep high standards of quality in what we do, raise the bar and scale up. All of that to bring a few more smiles on the faces of people around us.

MORE SMILES

Health care is another area that we took up under our CSR scope this year. We launched Mobi-Health, a well-designed mobile health unit. Mobile Health Unit, as a concept, may not be new but our approach is unique. Our focus is on Prevention. We are going into the root cause of a patient's health problem, and are following systematic approach to eradicate the same.

We are spreading health & hygiene awareness through innovative mediums like Bhawai to make the message more interesting and engaging. Interacting closely with villagers has also given us new insights. We have identified menstrual care and hygiene among adolescent girls as one major area that needs immediate intervention and launched our new project 'Jagruti' to address the same.

Financial and Operational Performance

Indian business environment showed mixed signals in the year 2015. Forecast for economic growth as measured by GVA for the fiscal year 2015-16 is estimated at 7.3%. Growth in industrial production as reflected by development of Index of Industrial Production (IIP) is placed much lower at about 3% to 4% during the same year.

Some of the sectors closely related to your Company's business such as agricultural equipment, for example, showed a strongly negative trend. Unfavourable developments in rural markets were also reflected in flat demand growth from two wheeler industry. Infrastructure development remained at a very moderate level. On a more positive note, Indian Government announced implementation of key projects to improve rail infrastructure in the country. Developments in Renewable Energy have been positive, though India still has significantly higher potential compared to current level of production in this sector.

Lower level of capacity utilisation in user industries impacted growth in aftermarket demand.

Exports business showed moderate growth.

Helped by global decline in prices of crude oil and some other commodities, inflation in the country remained well under control.

Slowdown in global economy, especially Chinese economy, turned many global competitors to intensify their Indian business activities thus leading to tough competition in local markets.

Overall, the market environment for your Company's business was moderately positive.

Performance

Your Company's total Income (including other income) was placed at ₹ 17,806 million in year 2015 (Year 2014: ₹ 16,731 million) representing a growth of 6.4%. Profit before tax was placed at ₹ 2,938 million (Year 2014: ₹ 2,324 million) representing a growth of 26.4%.

Reasonable growth in domestic and export markets together with improvement in operational efficiency led to favourable impact on bottom line. Our Company has been consistently practising prudent finance and working capital management. The strong focus on working capital and liquidity management has helped timely generation of sufficient internal cash flow to invest in long term strategic objectives of the Company.

We consider your Company's performance as satisfactory.

Strategy

As a member company of Schaeffler Group, your Company focuses on quality, technology and innovation as cornerstones of its long term strategy. We continue to invest in expansion of our manufacturing and engineering capabilities in the country. We keep customer at the centre stage of all our actions, and get involved in customer projects at an early stage of development. This helps us in our endeavours to position FAG as a preferred partner of our customers.

We believe that efficiency and control on costs are critical factors for success for business in India. Our programmes such as Fit for Quality and MOVE are consistently implemented in all areas to improve operational excellence.

Competence of our people is a key differentiator in competitive Indian market. We continue to vigorously invest in talent development as a core process within our Human Resource Development initiatives.

By consistent implementation of initiatives to improve market excellence, operational excellence and people excellence, your Company strives not only to achieve profitable growth but to also improve its long term competitiveness in the business.

Outlook

The forecast for GVA growth in FY 2016 -17 is likely to improve at 7.6% for the year 2016-17.

Government is energetically pushing the Make in India initiative and is taking measures to accelerate infrastructure projects and rural development while continuing its emphasis on fiscal discipline. With commodity prices unlikely to move up much, inflation may remain in control.

Above factors suggest further gradual improvement in economic and industrial outlook of the country.

Experts however do caution that the economic recovery may be uneven and there are downside risks. The pick-up in the investment cycle is yet to gain strength, the banking system is weighed down by bad loans, and the weaker global economy can hit India's exports.

Your Company believes that long term outlook for Indian economy is very positive, while for the short term we remain cautiously optimistic.

With our strategy to invest in continued expansion of manufacturing and engineering footprint, your Company is determined to maintain its focus on profitable growth in the short and long term. At the same time, we will strive to improve organisational agility and minimise risks that any short term downturn could bring.

The global situation currently is characterised by many challenges and uncertainties. In India, despite several chronic issues, we still see numerous opportunities in the long term. Being a leading player in this business we follow strong future orientation in our approach and continually work towards improving organisational competitiveness and agility. 'Expect More' epitomises our organisation's spirit of continual improvement as we remain positive, raise the bar and strive for innovation and excellence through team work in all areas of operations.

Dividend

Your Company has a steady dividend payment history and in line with the financial performance for the year 2015, your Directors recommend for your approval on dividend for the year ended December 31, 2015 at the rate of ₹ 10/- (2014: ₹ 7.5) per equity share amounting to ₹ 166.2 million. (2014: ₹ 124.6 million). The Company will pay the Income Tax on dividend as per the provisions of the Income-Tax Act, 1961.

Transfer to General Reserve

A sum of ₹ 400 million has been transferred to the General Reserves of the Company. This reflects well on the financial strength of the Company.

Transfer to Investor Education and Protection Fund

Pursuant to provisions of Section 205A of the Companies Act, 1956 [pursuant to rule 3 of the Investor Education and Protection Fund (Awareness and Protection of Investors) Rules, 2001] the unpaid/unclaimed dividend pertaining to the year ended on December 31, 2007 amounting to ₹ 2,64,912/- (including interest accrued thereon) which was lying in the Company's separate unpaid dividend account and remaining unclaimed for a period of seven years, was transferred to the Investor Education and Protection Fund (IEPF).

MANAGEMENT DISCUSSION & ANALYSIS

(Annexure A to the Directors' Report)

A MACRO-ECONOMIC ENVIRONMENT

According to World Bank report of January 2016, the global growth in year 2015 fell short of expectations; decelerating to 2.4% from 2.6% in previous year. The disappointing performance mainly reflected a continued growth deceleration in emerging and developing economies amid post-crisis lows in commodity prices, weaker capital flows and subdued global trade.

The World Bank forecasts global growth to edge up in the coming years, but at a slower pace; reaching 2.9% in 2016 and 3.1% in 2017-18. The forecast is however subject to substantial downside risk due to overall volatility in global markets.

At home in India, economic performance was impacted by weak monsoon, slowdown in exports, and stalled parliamentary action which delayed critical reform initiatives. Growth in Quarter Oct-Dec slowed down to 7.1%. However IMF forecast suggests that Indian economy will remain on recovery path helped by lower fuel and commodity prices, well managed fiscal deficit and positive policy action of the government.

The forecast for Gross Value Added (GVA) growth in year 2015-16 is estimated at 7.3% and is expected to further grow at 7.6% for the year 2016-17.

Experts however caution that the recovery may be uneven and there are downside risks. The pick-up in the investment cycle is yet to gain strength, the banking system is weighed down by bad loans, and the weaker global economy has hit India's exports.

India's wholesale prices continued to fall with the pace of price decline touching 0.73% in December 2015. The pace of price decline was driven by the global meltdown in commodity prices impacting energy and manufactured product costs.

B INDUSTRY STRUCTURE AND DEVELOPMENT

Your Company operates across the following major market sectors:

(A) Automotive OEM

(B) Industry OEM

(C) Aftermarket

(D) Exports

MANAGEMENT DISCUSSION & ANALYSIS

(Annexure A to the Directors' Report)

According to first estimates, rolling bearings demand in year 2015 grew by about 5% over last year and is currently estimated at approximately ₹ 95 billion. Besides local production, imports of bearings also grew in 2015 and is currently placed in the range of 45-50% of the total demand.

Two & Three Wheelers

After a smart growth in year 2014, production of Two & Three Wheelers remained flat in the year 2015. Inconsistent rainfall and low farm output impacted rural demand as sales of base level motorcycles in particular was impacted. For the year 2016, a modest recovery is likely. Due to capacity expansion by leading players in the industry, Two Wheeler market may see increased competitive pressure in the coming years.

Passenger Vehicles

After a flat development in year 2014, Passenger Vehicles (Passenger Cars & Utility Vehicles) market expanded by about 7% in year 2015. Growth was led by Maruti Suzuki with a growth of two-digit increase in production. Outlook for the year 2016 remains positive as growth will be driven by new model launches and replacement demand.

Commercial Vehicles

After a sharp decline in year 2013, production of Medium and Heavy Commercial Vehicles continued to recover in year 2014 and year 2015. The production of light commercial vehicles did not grow due to multiple reasons.

Factors such as replacement of aging fleet and expectations of pick-up in infrastructure demand is expected to drive further growth of Medium and Heavy Commercial Vehicles. Despite current unfavourable trends, long-term prospects of Light Commercial Vehicle segment remains positive due to further proliferation of "Hub and Spoke" logistic model consequent to likely implementation of GST.

Agricultural Tractors

Production of agricultural tractors declined sharply in year 2015 due to multiple factors such as weak monsoon, flood in some parts of southern India, low Kharif crop and stagnant Mandi prices. With expectations of increase in allocation for agriculture and rural infrastructure in forthcoming union budget, coupled with expected increase in minimum support prices of Rabi crops, the industry expects recovery in tractor production in year 2016.

In general, medium and long term outlook for automotive sector is positive. Favourable demographics, growing middle class, rapid urbanisation and expansion of infrastructure will drive the need for personal and public transportation. Industry will increasingly follow the global trend towards higher efficiency, controlled emissions, high safety and improved driving comfort.

As a member of Schaeffler Group, your Company benefits from extensive system competence in this sector. We continue to emphasize on enhancing our engineering and development competence. Our engineers are well trained and leverage their system competence as success factor. We work together with our customers in automotive sector at an early stage of their product development. This gives us opportunity to offer improved products, features and modules that support our customers in realising higher efficiency.

Besides investing in development of engineering competence, your Company is also expanding production of ball bearings and advanced wheel bearings to meet growing demand of our customers.

With our approach to continuously expand our engineering and manufacturing footprint in India, we set basis for long term success in this sector.

(2) INDUSTRIAL SECTORS

Growth in overall industrial activity was below expectations during the year 2015. The average growth in Index of Industrial Production (IIP) for the year 2015 was placed at 3.3%. Delayed private investment cycle, slower growth in infrastructure industry and weakness in export demand kept industrial development at moderate levels.

Development of Industrial production in 2015

Development of core industry slowed down considerably at 1.7% for the year 2015. Production of Steel in particular was impacted due to increased competition from cheap imports.

MANAGEMENT DISCUSSION & ANALYSIS

(Annexure A to the Directors' Report)

The outlook of our customer sectors such as Industrial Transmission, Electrical Machinery is dependent on new projects resulting from revival of investments.

In Rail sector, the government has ambitious plans for growth and modernisation. 'Dedicated Freight Corridor' project is progressing well. The government has also awarded contracts for production of Diesel and Electrical locomotives to private companies under PPP model.

The new government policies are clearly targeted to provide impetus to renewable sector. Though, solar energy production does not require rolling bearings, stronger development in Wind sector augurs well for your Company.

Development of Aftermarket demand is linked to capacity utilisation and new projects in sectors such as Steel, Mining, Cement and Paper industry to name a few. Since most of our customers in these sectors are still to utilise their full capacities, development in Aftermarket demand therefore remained subdued.

Trend in Aftermarket is clearly towards reduced Total Cost of Ownership (TCO). The customers are also looking for very short lead times. At the same time, the competitive intensity in this sector continues to increase as more and more brands, both local and imported, vie with each other to get share of Aftermarket demand.

Your Company has strong presence in industrial business. The 'Make in India' initiative of the government of India, with its focus on liberalised FDI regime, boost in manufacturing sectors such as defence, aerospace, etc., and concrete measures to improve 'Ease of doing business', will provide necessary impetus to industrial growth in medium and long terms. Trends towards growing urbanisation, multi modal transportation, development of infrastructure and focus on conventional as well as renewable energy will encourage industries to focus on high efficiency, quality and productivity. Your Company with its leadership in engineering and manufacturing technologies as related to rolling bearings, will benefit from these emerging trends. Some of the initiatives taken by our Company to secure long term success in industrial business are as follows:

- 1) We are continuing to expand production of low friction ball bearings at Savli plant.

- 2) Our production technology at Vadodara plant has been upgraded to produce highly efficient X-Life cylindrical roller and spherical roller bearings.
- 3) With setting up of Large Size Bearings (LSB) plant at Savli, we have set a basis for development and production of high performance bearings for demanding applications in Heavy Industries and Energy sectors. We have also invested in special processes like Black Oxidation to meet high quality expectations for applications in renewable sector. Large Size Bearings produced at our Savli plant are gaining excellent recognition from our customers in diverse sectors. The plant is now well utilised near to its capacity.

- 4) The technical competence of our engineers is the key success factor for your organisation. Our application engineers and technical office are continuously expanding their competences. Our Schaeffler technology centre develops comprehensive understanding of customers' business and processes. Deep know-how of key equipment and applications help us in designing and providing efficient and sustainable solutions far beyond a mere supply of products to our customers.
- 5) We continue to develop new products and expand our portfolio to get increased share with our customers in focus sectors.
- 6) In Aftermarket, responding to the trend towards reducing TCO, we offer value added services such as bearing mounting, lubrication, shaft alignment, condition monitoring and roll shop maintenance, to name a few. During the year under review, your Company successfully operated maintenance / condition monitoring projects in steel, cement and paper industries.
- 7) We continued to expand our channel reach in the country, especially in rural markets. Our initiative to enhance technical competence of our channel partners is gaining acceptance.

The central government is laying great emphasis on agricultural revival, rural sector, healthcare and infrastructural development. This will lead to gradual improvement in economic and industrial outlook for the year 2016.

With its strategy to invest in continued expansion of manufacturing and engineering footprint, your Company is determined to maintain its growth approach in the short and long term.

(Annexure A to the Directors' Report)

(3) EXPORTS

Your Company sells products manufactured in Vadodara and Savli plants to Schaeffler companies worldwide. During the year, the growth in revenue from exports slowed down to 4.7%.

Global economical environment is expected to remain in stress during year 2016. This may limit further expansion of our exports business. At the same time, your Company will continue to focus on raising its quality, cost and development capabilities to enhance global competitiveness and win markets.

(4) DEVELOPMENT OF FX RATES (USD AND EURO VS INR)

Volatility in exchange rate remained within manageable limits during year 2015. Your Company follows long term hedging strategy with regard to foreign exchange exposure.

(5) COMPETITION

Bearing industry has always been highly competitive. With slow-down in global economies, competition from imports intensified and this led to further pressure on prices.

At the same time, due to weak implementation of IPR in India, counterfeit products continue to pose unhealthy competition to reputed brands like ours.

Your Company focuses on technology, quality and innovation as its core competencies. We are convinced that our customers do not just look for low cost but insist on high product quality, efficiency and management of TCO. With our strategy to invest in best in class products, we are in position to meet growing expectation of our customers.

MANAGEMENT DISCUSSION & ANALYSIS

(Annexure A to the Directors' Report)

C RISK MANAGEMENT SYSTEM

Like any other ongoing business, your Company is exposed to a large number of potential risks that can adversely affect its business. Your Company has established comprehensive Risk Management System to ensure that risks to the Company's continued existence as a going concern and to its development are identified and addressed on timely basis. Consciously dealing with identified risks and regularly monitoring risk factors increases risk awareness and ensure continuing improvement.

Management identifies and evaluates; especially such risks which could jeopardize continued existence or development, at an early stage, defines and implements measures to control these risks. The risk management system consists of multi phased process. Initially, all risks are identified by different departments and functions as bottom up approach. These risks are then analyzed and evaluated by the Company's management team before these are reported to the Board of Directors.

Risks are classified in different categories such as financial risk, operational risk, legal risk and strategic risk. These risks are then classified and quantified depending on probability of occurrence and the extent of potential damage. This analytical approach clearly leads to categorization of risks as follows:

- 1) **Material Risk** - Risk with high probability and high negative impact
- 2) **Significant Risk** - Risk with medium probability and medium negative impact on profit or value of the Company
- 3) **Non Critical Risk** - Risk with either low probability of occurrence or which has negligible impact on profit or value of the Company.

The management presents above risk analysis along with planned mitigation to the Board of Directors periodically. Risk management strategy as approved by Board of Directors is implemented by the Company management.

D INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an adequate Internal Audit System that promotes reliable financial reporting, safeguards assets, encourages adherence to fair management policies as well as to the Schaeffler Group Guidelines and Specifications, as far as these are applicable and promote ethical conduct. The strong Internal Control Systems have been designed in a way that, they not only prevent fraud and misuse of the Company's resources but also protect shareholders' interest.

The Audit Committee of Board of Directors, on regular intervals and in co-ordination with Internal and Statutory Auditors, reviews the adequacy of Internal Control Systems within the Company.

The Company has an Independent Internal Audit Department.

Based upon the recommendations of the Audit Committee, an Annual Audit Plan (AAP) is prepared by the Internal Audit Department, which is reviewed periodically by the top management and the Audit Committee.

The internal audit focuses on compliance as well as on robustness of various business processes. A feedback on non-conformities along with recommendation for process improvements is directly provided to the top management of the Company. Compliance on audit findings and tracking of process improvements is regularly carried out.

All transactions are authorised as per Company's Approval and Signature Guidelines, which are recorded and reported in an organised manner.

E FINANCE

Your Company's total Income (including other income) was placed at ₹ 17,806 million in year 2015 (Year 2014: ₹ 16,731 million) representing a growth of 6.4%. Profit before tax was placed at ₹ 2,938 million (Year 2014: ₹ 2,324 million) representing a growth of 26.4%.

Reasonable growth in domestic and exports markets together with improvement in operational efficiency led to favourable

impact on bottom line. Our Company has been consistently practising prudent finance and working capital management. The strong focus on working capital and liquidity management has helped timely generation of sufficient internal cash flow to invest in long term strategic objectives of the Company.

We consider your Company's performance as satisfactory.

F HUMAN RESOURCE AND INDUSTRIAL RELATIONS

At FAG, our fundamental belief in immense power of human potential and teamwork is reflected in our people approach.

Your Company continued its focus on people excellence and implemented a number of initiatives involving employees and their families.

(1) COMPETENCE BUILD UP

Engineering Competence Model

Your Company considers engineering competence of its sales and technical team as its core competitive advantage. During the year, we continued implementation of our systematic engineering competence model and covered all our Sales Engineers, Product Designers, Application Engineers and Field Service Engineers. This multi-phased program imparts a clear understanding of bearing and engineering principles.

Team Leader Program

The Team Leader program aims to improve quality of line management at the shop-floor. Team leaders are selected based on extensive assessment of potential candidates' technical, analytical and leadership capabilities. The selected candidates are extensively trained in modern manufacturing practices, lean management, quality management principles and behavioural aspects. In order to emphasise on customer centricity, we provide the team leaders with in depth understanding of the Company's customers and their expectations.

Leadership and Talent Management

As a part of Schaeffler, we follow the globally standardised leadership and talent management practices.

Our EDD (Employee Development Dialogue) program maps employee competence with current and future needs of organisation and thus sets basis for a systematic developmental intervention. During the year, we intensified our multi-level leadership development initiatives such as; Young Leadership program and Accelerated Leadership program.

(2) EMPLOYEE ENGAGEMENT

We lay great emphasis on regular communication with our employees and their families to share and promote organisational values. Town-hall meetings are regularly held as a platform to share organisational priorities and best practices with our employees.

In year 2013, we had set up our WEe Wonder FAG Children Club which provides children of our employees with an excellent platform to ideate, create and interact with peers from diverse background and thus helps in spreading the values of togetherness, positive thinking and mutual respect. This year the WEe Wonder Club hosted a musical event for elderly in their families. This event called Sanskar Setu was extremely successful and strengthened bonds between members of three generations.

In order to ignite curiosity and develop scientific temper, the WEe Wonder Club organised a visit to Science city in Ahmedabad. Over 300 members participated.

MANAGEMENT DISCUSSION & ANALYSIS

(Annexure A to the Directors' Report)

Helping in Crisis

Recognising uncertainties of modern life and the harsh realities that families face in the event of untimely demise of an earning member, the Company continued its 'Employee Death Assistance' scheme to provide immediate additional assistance to the family members in the event of an unforeseen demise of an existing employee.

The scheme provides an assistance of lump sum amount equivalent to 120 months of last salary (basic + DA) drawn by the deceased employee and thus provides immense relief to the family. This unique scheme has been widely appreciated by all our employees.

Other Details

At the end of this year, employee strength of the Company was 1,638. During the year 2015, we largely maintained our track record of industrial harmony and peace.

G ENVIRONMENT

At FAG, we traditionally place great emphasis on combining economic success with taking responsible action towards Environment and Society. The commitment to sustainable management is anchored in our corporate management principles. Additionally, we take care of India specific laws and rules in our daily operations.

- ✓ Towards fulfilling our responsibility for environment, we systematically analyse risks, evaluate all possible impacts and take appropriate decisions to execute our strategy.
- ✓ Our plant at Maneja - Vadodara has long been validated regarding environmental protection in accordance with E-MAS and ISO 14001 certification. In addition Occupational Safety function is certified in accordance with OHSAS 18001.
- ✓ Our new plant at Savli was also recently certified with E-MAS, ISO 14001 and OHSAS 18001.
- ✓ We have competent environmental protection and safety officers stationed at each of our plant sites. These experts have regular communication and interaction with Schaeffler's global Competence Centre for Environmental Protection and Safety (CC-EHS). This allows clear understanding of global benchmark practices and lessons learnt which are then taken as actionable points in respective plant locations.
- ✓ We carry out systematic and periodic measurement of indices such as Water Consumption, Effluent Discharge, Gas Emission and Electricity Consumption. These measurements are transparently shared among all employees. Besides creating general awareness among employees towards environmental protection, the management encourages initiatives that are targeted towards reduction in consumption of resources and improvement in resource efficiency across all our processes.
- ✓ Our organisation-wide initiative - MOVE (German acronym for "More without Waste") has been very effective in identifying waste in our processes and in improving overall process efficiency. We continue to emphasize on training all our employees at our MOVE Academy where they are imparted training on MOVE principles through classroom studies and simulation games.
- ✓ Together with our customers, we design products which are energy efficient. Our plant at Vadodara already produces high performance X-Life bearings. These bearings are designed and manufactured to carry higher load ratings within the existing boundary dimensions. This allows customers to use downsized bearings for the same application or alternatively customers can expect much longer service life in existing applications.
- ✓ Our advanced products such as Wheel Module combine various functionalities within a bearing and thus significantly reduce system weight and improve reliability and efficiency.
- ✓ Our Savli plant is successfully producing Low Friction ball bearings which besides reducing noise levels also reduce friction significantly.
- ✓ FAG has strong presence in the Renewable Energy sector. Our comprehensive product portfolio to wind sector includes technologically advanced Main Rotor shaft bearings, Gear-box bearings, and Generator bearings. With ramp up of Large Size Bearing plant and

(Annexure A to the Directors' Report)

commissioning of Black Oxidation facility at Savli, we are now able to design and manufacture customized products for Wind energy customers in India.

- ✓ Towards the objective of improving efficiency and reducing Total Cost of Ownership (TCO), we offer comprehensive service portfolio to our customers. Our engineers work in customer's shop-floor and identify scope of improving efficiency and reducing overall cost. Due to strong technical capabilities of our service team, our customers can avoid significant break-downs and thus improve overall equipment efficiency.
- ✓ Together with other Schaeffler companies INA and LuK, we collaborate to integrate futuristic concepts

of sustainable development. Our engineers are contributing towards development of India specific next generation vehicle platforms such as Concept Car and Concept Bike. Leveraging this know-how, we are partnering with our customers on specific projects to increase efficiency and reduce waste/emissions.

- ✓ In the area of Occupational Safety, our goal is to create safe and healthy work environment by designing work stations and workflows based on the principles of occupational safety and ergonomics. Our workforce is well trained in preventive aspects of safety and is highly motivated to achieve target of 'ZERO' work related accidents.

'Link Intime India Private Limited' is acting as 'Registrar & Share Transfer Agent' for Company's Equity shares in physical and dematerialised form.

(xii) **Share Transfer System**

Trading of Company's equity shares is possible in physical as well as dematerialised form. Shares sent for transfer in physical form are registered on a fortnightly basis and returned within prescribed period from the date of receipt of document, provided all the documents are valid and complete in all respects. This practice was changed from October 1, 2012 as per the new guidelines issued by Securities Exchange Board of India. Consequently, now shares sent for transfer in physical form are registered on a weekly basis and returned within a period of fifteen days from the date of receipt of documents, provided all the documents are valid and complete in all respect. The authority to approve the share transfer / transmission lies with the Board of Directors.

Further, with an intention to expedite the process of share transfer / transmission, the Board has delegated authority in favour of 'Key Managerial Personnel' up to 5,000 shares per transfer deed including demat request and to issue duplicate shares certificates in lieu of originals up to 2,000 shares per request.

The Company confirms that there is no share transfer pending as on December 31, 2015, for more than fifteen days, from the date of lodgement thereof. All requests for demat / remat received by the Company / Registrar and Transfer Agent were confirmed / rejected within prescribed period from the date of receipt thereof.

(xiii) **Information of Dividend**

Pursuant to provisions of law, the Company is committed to make timely payment of dividend. The dividend amount that remains unpaid or unclaimed for the financial year ended on December 31, 2008 is due to be transferred, on May 31, 2016, to 'Investor Education and Protection Fund' (IEPF) a Fund constituted by the Central Government.

Entitled Members are requested to lodge their claims before the last date for claiming unpaid / unclaimed dividend as shown in the table below for the dividend in respective years. For the claims lodged after the last due dates, the Company does not take any responsibility for payment, as the balance amount on last due dates along with interest earned thereon shall be transferred to the IEPF.

Apart from this, the Company's website www.schaeffler.co.in/ contains comprehensive information about the Company, its products, services, solutions, press releases and investor's information, etc. The required information is being placed from time to time on the website.

(xxi) Other useful information to shareholders
ECS / NECS Facility

The Company uses 'Electronic Clearing Services' (ECS) facility for remitting dividend to its shareholders wherever available.

In terms of notification issued by the Reserve Bank of India, with effect from October 1, 2009, remittance of dividend through ECS is replaced by 'National Electronic Clearing Services' (NECS). Banks have been instructed to move to the NECS platform. The advantages of NECS over ECS include faster credit of remittance to the beneficiary's

account, coverage of more bank branches and ease of operations.

NECS essentially operates on the new and unique bank account number, allotted by banks post implementation of Core Banking Solutions (CBS) for centralised processing of inward instructions and efficiency in handling bulk transactions.

To enable remittance of dividend through NECS, Members are requested to provide their new account number allotted to them by their respective banks after implementation of CBS. The account number must be provided to the Company in respect of shares held in physical form and to the Depository Participants in respect of shares held in electronic form.

Shareholders holding shares in physical form are requested to provide details of their bank account for availing NECS facility in the form attached to the Notice of the Annual General Meeting. However, if the shares are held in dematerialised form, the NECS mandate has to be communicated to the Depository.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION, FOREIGN EXCHANGE EARNING AND OUTGO

(Annexure C to the Directors' Report)

A CONSERVATION OF ENERGY

Comprehensive approach towards energy conservation has been adopted during the year 2015 with best available solutions globally. At the same time, keeping in line with the trend of power factor at near unity, the following steps were taken:

- Avoiding water cooling to save water consumption in compressors and cooling towers, replacing old technology of centralised AC system with VRF based Air Cooled centralised systems;
- Reduction in utilisation of compressed air by which we achieved a substantial conservation of energy, regaining of used oil from grinding dust by installing sludge compression system, resulting in conservation of natural resources, and
- Installation of Huge Automatic air cleaners to maintain hygienic level of air within the working area.

1. The steps taken / impact on conservation of energy:

- Air Cooled VRF based AC with non CFC gases leading to savings in energy consumption.
- 45 Kw Pumps replaced by 6 Kw Pumps in AC systems for optimising system operations.
- Use of compressed air replace by Electro Vibrators at ring feeding systems.
- ETP - Improved the drive system for Aerators of ETP (savings of 3,600 units/month)
- Washing system - Washing media changed from ISOPAR to EXXOLD 95 leading to savings and reduction in safety hazard.
- Additional 11KV transformer installed to reduce full load losses and for operating the transformers at optimum efficiency.
- Roof painted for UV heat reflection to reduce indoor temperature leading to reduction in energy usage in AC systems.
- Overall total demand slab reduced with MGVCL by 15% by improving utilisation of energy.
- Higher KW pumps replaced by lower KW pumps by optimising pressure & flow on line in supply systems.
- Convert washing media MTO to ISOPAR reduction of risk of fire.
- Demagnetizer coil converted in pulse setting to avoid continuous working of coil.
- 50% reduction in consumption of nitrogen by using alternate technology furnace to improve productivity and energy consumption in heat treatment area.
- Minimise environment impact by recycling grinding dust to reuse by end users.

2. The steps taken by the Company for utilising Alternate Sources of Energy:

In continuation of the steps taken last year, we expanded use of natural resources of solar power in lighting. Also, alternative material used in place of consumable paper rolls for Filtration system. Alternative source of water resources was tapped by optimisation of rain water harvesting.

- Filtration media recyclable plastic family band filter installed in place of paper filter and support environment friendly drive in utilities.
- Rainwater Harvesting system optimization by ground water level improved.
- Reduction in freshwater consumption of 13% by optimising current resources of recycling.

3. The capital investment on energy conservation equipment:

Keeping in mind future plans for a long term energy conservation challenges, this year we invested in many areas of energy conservation and environment preservation;

- Separation of ETP and STP line
- Drain cleaning equipment
- RO/DM Water plant upgradation
- Oil skimmer at ETP plant
- Power Transformer 11000/440V-2000KVA
- Servo Controlled voltage stabilizer 300 KVA
- 5 nos. LT panel for stabilizer protection installed oil Skimmer/Floating sludge pusher to gain oil from fumes.

B TECHNOLOGY ADAPTATION

- FAG India has been successful in adoption of world class grinding technology for precision bearings and bearing component manufacturing, developing a series of super finishing machines and world class assembly equipment.
- New development is focused for industrial applications in bearing technology.
- FAG India invested in latest super finishing DGBB machines and in the most modern & fully automatic CRB Grinding and Assembly line.
- Assessment of existing machine and technology made us stronger in making further improvements in our products.
- Keeping productivity and quality in focus, all resources aim together for using right technology at right place and developing necessary human asset accordingly.
- Key investments are planned to expand the capacity with latest technology in DGBB.

(Annexure C to the Directors' Report)

- CRB and Wheel bearings which will further enhance our edge of competitiveness.
- With all these initiatives we are equipped with necessary information for next level of quality achievement. With focus on our component manufacturing area, we are also investing in world class Roller manufacturing facility to cater to the customers' requirements.
- As a complete solution provider, we have successfully invested in a world class Wheel Hub Bearing manufacturing plant which caters to the automotive segment.

CSR REPORT

(Annexure E to the Directors' Report)

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY ACTIVITIES

(I) FAG's CSR Policy

At FAG, we believe that science and technology are synonymous with economic and human development as both aim to drive progress, improve standard of living while preserving environment and supporting sustainability.

As a part of Schaeffler Group and leading manufacturer of roller bearings in the country, we find numerous opportunities to contribute to human progress through our innovative technologies and thus touch lives of people. At the same time, being an Indian Company, we are equally motivated by Indian ethos of Dharma as a key plank for organisational self-realisation. We constantly strive to contribute in our humble way to the motto 'सर्वे भवन्तु सुखिनः' - (May everyone be happy) and take up the cause of welfare amongst communities in which we operate.

Delineating our responsibility as a corporate citizen, we at FAG are committed to operate our business in an economically, socially & environmentally sustainable manner. At the same time, we endeavour to reach out to different sections of the society, with socially relevant projects that benefit these communities and in small ways enhance the quality of their lives. These initiatives are independent of the normal conduct of FAG's business. Programmes, projects and activities (collectively 'CSR Programmes') as framed within the purview of Schedule VII of the Companies Act, 2013 as amended from time to time

and are the subject matter of this Policy.

The Company's CSR Policy is made available at below link; http://www.schaeffler.com/remotemedien/media/_shared_media/03_worldwide/02_websites_worldwide/india_2/company/fag_india/ir/codes_policies/Policy_on_Corporate_Social_Responsibility.pdf

We believe that our corporate strategy is inspired by the opportunity to contribute to a more secure and sustainable future.

Objectives

We aim to constantly identify and implement unique initiatives which are scalable and sustainable and which have the capacity to create a positive impact on the lives of especially the weaker and marginalised sections. By contributing to development of health, science and culture, we wish to further all-round progress.

With a view to extending the reach of our CSR initiatives and leverage collective expertise, we also encourage partnerships with like-minded stakeholders.

Our Policy lays a framework to identify and implement different CSR initiatives of the Company within the context of policy and in alignment with relevant provisions of the Companies Act, 2013 while following high standards of corporate governance. The CSR Committee of the Board of FAG Bearings India Limited reviews, improves, directs and monitors effective implementation of this Policy.

(II) CSR COMMITTEE

The Committee comprises following members;

Sr. No.	Name of the Directors	Acting in the Committee as	Category
1	Mr. Rakesh Jinsi	Chairman	Non-executive & Independent
2	Mrs. Renu Challu	Member	Non-executive & Independent
3	Mr. Rajendra Anandpara	Member	Managing Director

(III) CSRBUDGET - 2015

An amount of ₹ 43.4 million comprising 2% of the Company's average net profit has been budgeted for spending in year 2015.

This year the Company has worked upon assessment of the needs of relevant segment of society conducted various surveys and created perceptible infrastructure that ensures effective monitoring mechanism of CSR Programmes.

(IV) CSREXPENDITURE - 2015

(a) Amount spent: ₹ 30.7 million

CSR Programmes that are truly beneficial to the society in the long run, support livelihood and infuse sense of pride in living (especially within the underprivileged sections of the society), have been the focus of CSR initiatives. The project-wise details are attached under annexure to this Report.

The Company has identified various projects. Some of these have progressed well, while others are ongoing and at the stage of conceptualisation and initialisation.

SUMMARY OF THE PROJECTS

1. Hostel for Differently Abled Girls

Need: Mook Dhvani, a well-known NGO trust is running a school for differently abled (deaf & dumb) students. The school did not have a separate building for girls and this

CSR REPORT

(Annexure E to the Directors' Report)

factor discouraged girl students from pursuing high school education in this school.

Project: The Company therefore constructed a separate hostel building for girls. This hostel has capacity of 30 beds with all quality infrastructure and amenities for healthy and inspired living. The Project has been recognised and awarded by the Vadodara District CSR cell as one of the best infrastructure projects.

Impact: Fulfilled need for good hostel at the campus and gave the girls a healthy living environment. This will boost the girls' education, will reduce dropout rate and in a small way contribute to empowerment.

2. Maintenance of Hostel for Differently Abled Girls

Need: It is often experienced that a well-constructed infrastructure loses its initial quality due to lack of good maintenance practices. The newly built Girl's Hostel at Mook Dhvani is required to be maintained well in order to extend benefits year after year.

Project: The Company undertook responsibility for maintenance of the hostel for initial years. Professional maintenance contracts are in place for upkeep of infrastructure facilities. Facilities are upgraded based on needs from time to time.

Impact: Quality of infrastructure is maintained and improved, Students learn good practices.

3. Special Education: Skill for Employability

Need: During interaction with students, teachers and administrators, we learnt that differently abled students struggle to find a suitable career after schooling.

Project: We connected with current and ex-students of Mook Dhvani School and encouraged them to take up customised training courses. These courses will impart occupational skills to students and will improve their career prospects. Some of the courses where students are trained include: (a) Beauty and Wellness (b) Computer Hardware maintenance (c) Computer Animation

Above courses are provided with the help of school administration and best-in-class training institutes

Impact: Differently abled students will feel more confident in pursuing professional careers, supported by professional qualification consistent with their aptitude

4. Healthcare: Mobi-Health Unit-Savli

Need: Our survey indicated that basic health support to and health awareness in people living in rural areas around our Savli plant was lacking. Initiatives currently running are inadequate in terms of quality, reach and consistency.

Project: We took up a Project to provide basic healthcare support while improving health awareness. Specially designed Mobile Health Unit provides preventive and curative health care services in 25 villages surrounding our Savli plant covering a rural population of 80,000. Well qualified doctors and counsellors focus on prevention of diseases. Through programmes like Bhawai, we enhance health

awareness. Health Camps are organised regularly. We have engaged 'Deepak Foundation' a well known NGO in Gujarat, to run the project.

Impact: Mobi-Health is well accepted by people in villages. By regularly connecting with communities, we hope to contribute to prevention of disease in rural areas.

5. Preservation of Culture and Heritage

Need: City of Vadodara and State of Gujarat have a rich culture and heritage. Unfortunately, the young and new generation is not well informed about this.

Project: Initially, we ran a pilot project in which we took students of municipal schools to Lakshmi Vilas Palace - an architectural milestone and heritage monument in the city of Vadodara. This guided tour provided excellent understanding to students about heritage of Vadodara, progressive outlook of Gaekwads - the royal family of Vadodara. The students were informed, in an interesting manner, about richness of architecture and fine arts at different places of Vadodara. So far students of municipal school have benefited from these tours.

We have recently invested in a uniquely designed travel coach 'Quest on Wheels'. Our objective is to increase awareness about rich Indian culture among young children by providing an interesting experience through well planned tours. We plan to include more destinations in our schedule.

The Royal family of Vadodara has been very supportive of this initiative.

Impact: Students have found these tours very interesting as they learn a lot during the tours.

6. Healthcare: Mobi-Health unit - Sindhrot

Success of Mobi-Health project in villages around Savli encouraged us to provide similar support to people living in 23 villages surrounding Sindhrot & Padra.

7. Construction of School - Lamdapura

A Project to construct a new school building in Lamdapura village near our Savli plant is under initial phase of implementation.

8. Jagriti

This Project, aimed towards improving menstrual care and hygiene practices among women in rural area, is under initial stage of implementation.

In each of above initiative our aim is to create positive and lasting impact on communities around us by taking up innovative projects that are scalable and sustainable. We collaborate with NGOs and experts who have domain expertise. Consistent with our core values, we emphasise on high quality in all our Projects, constantly raise the bar, get our teams involved at every stage of implementation, with the sole objective of bringing more smiles on faces of communities around us.

A video showing impact of some of these Projects is available on the Company website.

(b) Amount unspent: ₹ 12.7 million

Justification: The Company followed a systematic approach towards implementation of its CSR initiatives. Focus areas have been clearly identified. Projects have been selected based on extensive need-impact study. Implementation partners have been selected upon careful evaluation. In all these endeavours, we have emphasised on high level of quality, excellence and innovation at every stage of conceptualisation and implementation. This required time and hence some delay with consequent shortfall in the amount spent vis a vis target.

The Projects selected are scalable and sustainable. The Project implementation should therefore be evaluated only from medium term view of cost and benefits.

We have earmarked the budget for respective Projects and the allocated amount will be spent on those Projects to ensure effective implementation and sustenance thereof.

The Committee confirms that the implementation and monitoring of the CSR Policy is in accordance with the CSR objectives and Policy of the Company.

The median remuneration of employees of the Company was increased by 1.54% during 2015. (from ₹ 0.75 to 0.76 million per annum)

3 The number of permanent employees on the rolls of Company as on December 31, 2015 was 1,560

4 The Relationship between average increase in remuneration and Company performance:

As per the remuneration policy of your Company, employees are compensated on the basis of performance and potential needed for achieving competitive advantage in the business. The compensation structure has been built by regular benchmarking over the years with relevant players across the industry in which your Company operates in. The increases in 2015 were in line with your Company's performance as well as per Company's market competitiveness.

5 Comparison of the remuneration of the Key Managerial Personnel against the performance of the Company:

Internally, performance ratings of all employees (staff) are always spread across a normal distribution curve. The rating given to an employee is used as an input to determine his variable and merit pay increases. Variable and Merit pay increases are calculated using a combination of individual performance and Company performance.

(Annexure F to the Directors' Report)

6 Variations in the market capitalisation of the Company, price earnings ratio as at the closing date of the current financial year and previous financial year:

Particulars	December 31, 2015	December 31, 2014	% Change

- (d) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and
- (e) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998;

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Listing Agreements entered into by the Company with BSE Limited and National Stock Exchange of India Limited.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above subject to the following observation:

- The company has spent ₹ 30.7 million out of ₹ 43.4 million on Corporate Social Responsibility during the Financial Year 2015.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review, if any were carried out in compliance with the provisions of the Act.

Adequate notice is given to all the Directors to schedule the Board Meetings, Agenda and detailed notes on Agenda were sent at least seven days in advance and a system exists for seeking and obtaining further information and clarification on the Agenda items before the meeting and for meaningful participation at the meeting.

As per the minutes of the meetings duly recorded and signed by the Chairman, the decisions of the Board were unanimous and no dissenting views have been recorded.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with all the applicable laws, rules, regulations and guidelines.

We further report that during the audit period, FAG Roller Bearings Private Limited ('FRB' or the Transferor Company) was amalgamated with the Company (Transferee Company). The transferor Company is wholly owned subsidiary of Transferee Company.

INDEPENDENT AUDITORS' REPORT

to the Members of FAG Bearings India Limited

Report on the Financial Statements

We have audited the accompanying financial statements of FAG Bearings India Limited ('the Company'), which comprise the Balance Sheet as at December 31, 2015, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give

Mumbai: February 12, 2016

the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2015, and its profit and its cash flows for the year ended on that date.

Emphasis of Matter

We draw attention to Note 42 to the financial statements in respect of accounting for forward contracts. The Company has adopted and applied the principles of hedge accounting as set out in Accounting Standard (AS)-30, 'Financial Instruments: Recognition and Measurement' issued by Institute of Chartered Accountants of India to forward contracts in respect of highly probable transactions or firm commitments. Consequently, the Company has recorded ₹ 8.6 million representing marked to market gain in the hedging reserve as at December 31, 2015 (₹ 203 million marked to market loss as at December 31, 2014). Our opinion is not qualified in respect of this matter.

Report on other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2015 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- As required by Section 143(3) of the Act, we report that:
 - we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - in our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - the Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - in our opinion, the aforesaid financial statements comply with the Accounting Standards notified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - On the basis of the written representations received from the Directors as on December 31, 2015 taken on record by the Board of Directors, none of the Directors is disqualified as on December 31, 2015, from being appointed as a Director in terms of Section 164(2) of the Act; and
 - With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company has disclosed the impact of pending litigations on its financial position in its financial statements - refer note 30 to the financial statements.
 - The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - refer note 42 to the financial statements.
 - There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE TO THE INDEPENDENT AUDITORS' REPORT

December 31, 2015

With reference to the Annexure referred to in our report of even date, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Accordingly, a part of the fixed assets were physically verified by the management in the current year and no material discrepancies were noticed on such verification.
- (ii) (a) The inventory, except goods-in-transit and stocks lying with certain third parties, has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. For stocks lying with third parties at the year-end, written confirmations have been obtained.
- (b) The procedures for the physical verification of inventories followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company is maintaining proper records of inventory. The discrepancies noticed on verification between the physical stocks and the book records were not material.
- (iii) According to the information and explanations given to us, we are of the opinion that there are no companies, firms or other parties covered in the register required under Section 189 of the Companies Act, 2013. Accordingly, paragraph (iii) of the Order is not applicable.
- (iv) In our opinion and according to the information and explanations given to us, and having regard to the explanation that purchases of certain items of inventories and fixed assets are for the Company's specialised requirements and similarly certain goods sold and services rendered are for the specialised requirements of the buyers and suitable alternative sources are not available to obtain comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of inventories and fixed assets and with regard to the sale of goods and services. We have not observed any major weakness in the internal control system during the course of the audit.
- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted deposits as per the directives issued by the Reserve Bank of India under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Accordingly, paragraph (v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Companies Act, 2013, in respect of bearings and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident Fund, Employees' State Insurance, Income-tax, Sales-tax, Wealth tax, Service tax, Customs duty, Excise duty, Value added tax and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities.
According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales-tax, Wealth tax, Service tax, Customs duty, Excise duty, Value added tax and other material statutory dues were in arrears as at December 31, 2015 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no dues of Income tax, Sales tax, Service tax, Wealth tax, Excise duty, Customs duty and Value Added Tax, which have not been deposited with the appropriate authorities on account of any dispute other than those mentioned below:

Name of the statute	Nature of the dues	Amount (₹ in million)	Period	Forum where the dispute is pending
State and Central Sales Tax Act	Duty and interest	9.9	2009-10	Commissioner Appeals
		1.4	2009-10	Dy. Commissioner Sales Tax

NOTES TO THE FINANCIAL STATEMENTS

for the year ended December 31, 2015

1 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

(A) Basis of Preparation

The financial statements have been prepared to comply in all material respects with the Accounting Standards notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, accounting standards issued by Institute of Chartered Accountants of India (ICAI), other accounting principles generally accepted in India and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on an accrual basis except for certain financial instruments which are measured on a fair value basis. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year. The financial statements are presented in Indian rupees million rounded off to one decimal place.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Act. Based on the nature of the services and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

(B) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities at the date of the financial statements and during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision in accounting estimates is recognised prospectively in current and future periods.

(C) Fixed Assets and Depreciation

(i) Fixed assets are stated at cost of acquisition or construction (including directly attributable expenses thereto) or at revalued amounts, net of impairment loss if any, less depreciation / amortisation. Cost includes financing costs of borrowed funds attributable to acquisition or construction of qualifying fixed assets, up to the date the assets are put to use. Acquired intangible assets are recorded at its acquisition price and amortised over its estimated useful life as per the Company's depreciation / amortisation policy.

(ii) **Depreciation / Amortisation:**

(a) Tangible assets:

(i) Leasehold land is depreciated over the period of the lease except where the lease is convertible to freehold land under lease agreements at future dates.

(ii) Pursuant to the Schedule II to the Act being applicable to Company with effect from January 1, 2015, depreciation is provided on straight line method and the Company has adopted the useful lives as specified in Part 'C' of Schedule II of the Act (refer note 10).

(iii) Assets individually costing ₹ 5,000 or less are depreciated fully in the year when the assets are put to use.

(b) Intangible assets:

These are amortised on straight line method over a period of three years.

(D) Impairment

The carrying amounts of assets are reviewed at each Balance Sheet date to determine if there is any indication of impairment based on internal / external factors. Assessment of indication of impairment of an asset is made at the year end and impairment loss, if any, recognised. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the Company measures its 'value in use' on the basis of discounted cash flows of projections estimated based on current prices.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(E) Investments

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are valued at the lower of cost and fair value. Changes in the carrying amount of current investments are recognised in the Statement of Profit and Loss. Long-term investments are valued at cost, less any provision for diminution to recognise a decline, other than temporary, in the value of such investments; decline, if any, is charged to the Statement of Profit and Loss. Cost comprises cost of acquisition and related expenses such as brokerage and stamp duties.

(F) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is ascertained on a moving weighted average basis except for goods in transit which is ascertained on a specific identification basis. Work-in-progress and manufactured finished goods are valued on full absorption cost basis and include material, labour and factory overheads.

for the year ended December 31, 2015

(G) Foreign Currency Transactions**Initial Recognition**

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency prevailing at the date of transaction.

Conversion

Foreign currency monetary items are reported using the closing rate.

Exchange Differences

Exchange differences arising on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expense in the year in which they arise.

Derivatives

- (i) In case of forward contracts, to which AS-11, "The Effects of Changes in Foreign Exchange Rates" applies, the difference between the forward rate and the exchange rate on the date of the contract is recognised as income or expense over the life of the contract. Exchange differences on such a contract are recognised in the Statement of Profit and Loss in the period in which the exchange rates change. The gains / losses arising on settlement / cancellation of the contracts are recognised as income / expense in the Statement of Profit and Loss of the period of such settlement / cancellation.
- (ii) The Company enters into forward exchange contracts to cover its exposure in respect of highly probable transactions or firm commitments and no premium or discount is recorded separately on such forward exchange contracts.
- (iii) The Company has adopted the principles of hedge accounting set out in Accounting Standard (AS)-30, 'Financial Instruments: Recognition and Measurement' issued by Institute of Chartered Accountants of India with effect from August 1, 2014 for the purpose of accounting of forward contracts entered into by the Company to hedge highly probable transactions on firm commitments which are outside the scope of AS-11. 'The Effects of Changes in Foreign Exchange Rates'. These contracts are marked to market as at the year end and the resultant gain or loss (except relating to the effective portion of cash flow hedges) from these transactions are recognised in the Statement of Profit and Loss. The gain or loss on effective portion of cash flow hedges is recorded in the Hedging Reserve (reported under the head "Reserves and Surplus") which is transferred to the Statement of Profit and Loss

in the same period in which the hedged item affects the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. If the forecast transaction is no longer expected to occur, then the balance in hedging reserve is reclassified in the Statement of Profit and Loss. Also refer note 42.

(H) Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- (i) Sale of goods is recognised on shipment or dispatch to customers when the risks and rewards of ownership are transferred to the customer. "Sales" are net of sales tax, value added tax, returns, trade discounts and volume rebates.
- (ii) Commission income on indenting business is recognised based on intimation received for sales made.
- (iii) Dividend income from investments is recognised when the Company's right to receive payment is established.
- (iv) Interest income is accounted for on a time proportion basis taking into account the amount outstanding and the rate applicable.
- (v) Claims are accounted to the extent lodged with the appropriate authorities. Export incentives are accounted on accrual basis based on shipment.
- (vi) Rental Income is accounted for on accrual basis.

(I) Employee Benefits**(i) Short-term employee benefits:**

Employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and are recognised in the period in which the employee renders the related service.

(ii) Post-employment benefits (defined benefit plans):

All employees are covered under Employees' Gratuity Scheme which is a defined benefit plan. The Company contributes to the Fund on the basis of the year-end liability actuarially determined in pursuance of the Scheme. All actuarial gains / losses arising during the accounting year are recognised immediately in the Statement of Profit and Loss as income or expense.

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of certain employees towards Provident Fund to a Company managed PF Trust. The contributions are

NOTES TO THE FINANCIAL STATEMENTS

for the year ended December 31, 2015

charged to Statement of Profit and Loss as they accrue. The Company has an obligation to fund any shortfall in the Trust fund as determined on the basis of year-end actuarial valuation.

(iii) Post-employment benefits (defined contribution plans):

All other employees are covered under contributory provident fund benefit of a contribution of 12% of salary and certain allowances. Certain employees are also covered by a Company managed Superannuation fund benefit at a contribution of 15% of salary and certain allowances. Both are defined contribution schemes and the contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. There are no obligations other than the contributions payable to the respective fund.

(iv) Long-term employee benefits:

Long term employee benefits comprise of compensated absences. These are measured on the basis of year-end actuarial valuation in pursuance of the Company's leave rules.

(j) Warranty

Warranty expenses are accounted for based on actual experience of claims received during the last three years.

(K) Income and Deferred Taxes

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. Deferred income tax reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each Balance Sheet date the Company reassesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

(L) Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Diluted EPS is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and equivalent diluted equity shares outstanding during the year, except where the results would be antidilutive.

(M) Operating Lease

Lease, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset during the lease term, are classified as operating leases. Operating lease payments and receipts are recognised as an expense and income respectively in the Statement of Profit and Loss on a straight-line basis over the lease term.

(N) Provisions and Contingencies

A provision is recognized when an enterprise has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A disclosure by way of a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

Contingent Assets are not recognised or disclosed in the financial statements.

(O) Cash and Cash Equivalents

Cash and cash equivalents in the cash flow statement comprise cash at bank and cash / cheques in hand and short term deposits with Banks.

36 Research and Development expenses under the respective heads aggregate to ₹120.9 million (Previous year ₹ 97.7 million) including of capital nature ₹ Nil (Previous year ₹ 0.2 million).

37 The tax year for the Company being the year ending March 31, 2016, the provision for taxation for the year is the aggregate of the provision made for the three months ended March 31, 2015 and the provision based on the figures for the remaining nine months up to December 31, 2015 the ultimate tax liability of which will be determined on the basis of the figures for the period April 1, 2015 to March 31, 2016.

The Company's international and domestic transactions with associated enterprises are at arm's length as per the independent accountant's report for the year ended March 31, 2015. The Company is in the process of updating the documentation for the international and domestic transactions entered into with the associated enterprises during the period subsequent to March 31, 2015. Management believes that the Company's international and domestic transactions with associated enterprises post March 31, 2015 continue to be at arm's length and that the transfer pricing legislation will not have any impact on the financial statements particularly on the amount of the tax expense for the year and the amount of the provision for taxation at the year end.

42 DERIVATIVE INSTRUMENTS

The Company has entered into foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to firm commitments and highly probable transactions.

The Company has adopted and applied the principles of hedge accounting as set out in Accounting Standard (AS)-30, 'Financial Instruments: Recognition and Measurement' issued by Institute of Chartered Accountants of India with effect from August 1, 2014 to forward contracts in respect of highly probable transactions or firm commitments which were previously accounted following the principles of prudence as per AS-1 'Disclosure of Accounting Policies'.

Gain on the fair valuation of forward covers, which qualify as effective cash flow hedge amounting to ₹ 8.6 million (Previous year ₹ 203.0 million - marked to market loss), on the Balance Sheet date, has been recognised in the hedging reserves account.

The outstanding forward exchange contracts as at December 31, 2015 are as follows:

43 EMPLOYEE BENEFITS: POST-EMPLOYMENT BENEFIT PLANS

Defined contribution plans:

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund, which is a defined contribution plan. The Company has no obligations other than to make the specified contributions. The contributions are charged to the Statement of Profit and Loss as they accrue. The amount recognised as an expense towards contribution to Provident Fund for the year aggregated to ₹ 50.8 million (Previous year: ₹ 49.5 million) and contribution to superannuation fund for the year aggregated to ₹ 23.9 million (Previous year: ₹ 22.0 million).

Defined benefit plans:

The Company has defined benefit plans that provide gratuity benefit and provident fund for certain employees. The gratuity plan entitles an employee, who has rendered at least five years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement / exit. The Scheme is funded by the plan assets.

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of certain employees towards Provident Fund to a Company managed PF Trust. The contributions are charged to Statement of Profit and Loss as they accrue. Based on actuarial valuation report there is no shortfall in the Trust fund as at December 31, 2015.

The following table summarises the position of assets and obligations relating to the two plans.

All documents referred to in the Notice are open for inspection at the Registered Office of the Company between 10:00 am and 5:00 pm on any working day up to the date of Annual General Meeting.

ANNEXURE TO NOTICE

Statement under Section 102 of the Companies Act, 2013 relating to Special Business mentioned in the Notice convening the 53rd Annual General Meeting;

ITEM No. 6 **Approval on Material Related Party Transactions**

In order to sustain quality standards of the Schaeffler Group, quantitative benefits, ease of customer reach, global representation and in the best interest of the Company and its shareholders, major transactions of the Company pertaining to sale, purchase or supply of goods, materials & services have been since long with Schaeffler Group Company, i.e. Schaeffler Technologies AG & Co. KG, Germany. Considering the prevailing market trend these transactions will continue in the year 2016 and thereafter with an increase of up to 25% over and above the consolidated value of transactions in the previous year.

These transactions as well as the proposed transactions would continue to be in ordinary course of business and at arm's length basis.

Pursuant to provisions of Regulation 23 of the Securities and Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015, all 'Material Related Party Transactions' will require approval of the Members through an Ordinary Resolution.

Since the aggregate value of these transactions (year to date plus proposed in 2016) is likely to exceed ten percent of the annual consolidated turnover of the Company as per the last audited financial statements of the Company, the said transactions would be considered to be Material Related Party Transactions for the purpose of provisions of Regulation 23 of the Securities Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015, and will thus require approval of the Members of the Company through an Ordinary Resolution. The Audit Committee and the Board of Directors have reviewed major terms & conditions of these transactions and recommend to the members for their approval by way of an Ordinary Resolution.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Resolution set out in Item No. 6 of the notice except to the extent of their shareholding or employment in the Company, its Holding Company or Associate Group Company.

The Board recommends the Resolution under Item No. 6 of the notice for approval of the Members as an Ordinary Resolution.

ITEM No. 7 **Remuneration to the Cost Auditors**

The Board of Directors, at its meeting held on February 11, 2015, upon the recommendation of the Audit Committee, approved the appointment of M/s Y. S. Thakar & Co., Cost Accountants, as Cost Auditors of the Company for conducting the Cost Audit of the Company, for the Financial Year ending December 31, 2015 at a remuneration of ₹ 1 lakh (Rupees One Lakh only), excluding all taxes and out of pocket expenses.

Pursuant to Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, Members of the Company are required to ratify the remuneration to be paid to the Cost Auditors of that Company.

Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out in Item No. 7 of the notice for ratification of the remuneration payable to the Cost Auditors.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Resolution set out in Item No. 7 of the notice.

The Board recommends the Resolution under Item No. 7 of the notice for approval of the Members as an Ordinary Resolution.

ITEM No. 8 **Remuneration to the Non-executive Directors**

In accordance with the Nomination and Remuneration Policy of the Company (hereinafter referred as the 'Policy'), the remuneration payable to each Non-executive Director (including Independent Directors) will be based on the remuneration structure as determined by the Board depending upon performance, and be paid under the categories viz. 'Sitting Fee' and 'Profit Related Commission'. It is further stated in the Policy that Non-executive Directors, who are in whole-time employment with other Associate Companies of the Schaeffler Group, will not be entitled for any remuneration, from the Company.

Subject to approval of the shareholders, in accordance with the Policy and pursuant to recommendation of the Nomination & Remuneration Committee (NRC) and the Board of Directors, the Non-executive Directors shall be entitled for the remuneration as under;

a. Sitting Fee:

As per the approval of the Board or maximum limit prescribed in the Companies Act, 2013 read with rules made thereunder, whichever is lesser.

b. Profit Related Commission:

An aggregate amount of ₹ 3.85 million for the year 2015 and within the maximum of ₹ 11.0 million per annum (provided it does not exceed the maximum limit prescribed in the Companies Act, 2013 read with rules made thereunder) for the period up to and including 2019; as may be decided by the Board of Directors.

The resolution under item no. 8 of the notice is in accordance with prevailing regulatory requirements and the maximum permissible limits calculated in accordance with provisions of the Sections 197 & 198 of the Companies Act, 2013 that can be paid to the Non-executive Directors of the Company (both existing and any future appointments that may be made on the Board).

None of the Directors (except respective Non-executive Director) or Key Managerial Personnel of the Company and their relatives are concerned or interested financially or otherwise, in the aforesaid resolution except to the extent of their shareholding, if any, in the Company.

The Board recommends the resolution under Item No. 8 of the notice for approval of the Members as an Ordinary Resolution.
